

Introducing the most popular family of pour over brewers.

The AK Series offers both a heat pump model (AKH) and the traditional displacement tank system (AK).

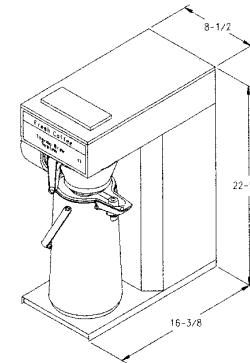

AK SERIES BREWER MODEL AK AP

AK SERIES BREWER MODEL AK AP

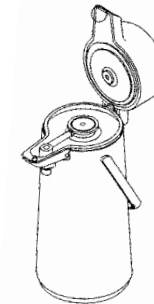

The next dimension in pour over brewers.

- Airpot model features unique brew-thru stem. Stem remains in place while brewing to maintain heat for longer periods of time. Addresses the sanitation issues if removed.
- 60 oz. carafe model features unique brew-thru lid for better heat retention.
- Ready light incorporated for optimum brewing temperatures. (AK models only)
- Master power switch.
